

ANNEX D- 1. Common Themes

1. COMMON THEMES	Czech Republic	Greece	Malta	Croatia	Spain	France	Sweden	Germany	Denmark	Netherlands
Freshwater/water	Freshwater quality	Water	Freshwater	water			Freshwaters	environmental media		Freshwater
Marine waters		bathing water	marine and coastal areas	water		Mediterranean	eutrophication			
Air pollution	air emissions and quality	Air quality	Air quality	Air pollution	GHG emissions	Reduce gas emissions	air quality/pollution	environmental media- air/ water /soil		Air quality, GHG emissions
Land Use Changes	land use changes	Land use planning	none mentioned							
Waste disposal	waste disposal	Waste	Waste		waste		waste progress	waste management		Waste
Resources management					resources management	building construction	sust. consumption/production	consumption / production		
Environment and Health	transport on the environment		environment and health		environment and health	environmental governance		environment and health	environment and health	
Transport	transport on the environment			Transport	transport and the environment			transport adaptation		Transport
Energy	none			Energy	energy with bioenergy	increase energy efficiency	energy savings			Energy
Biodiversity	Biodiversity	Biodiversity/nature	Biodiversity	Biodiversity	Biodiversity		biodiversity + ecosystems	biodiversity	nature/biodiversity	Biodiversity
Agriculture	impact of agriculture			agriculture						
Climate change				climate change	climate change impacts	climate change	climate change	climate change	climate change	
Other					social/economic / territorial/ adaptation and vulnerability			chemicals,	sustainable society
