# EEA resource efficiency webinar

Friday, 4 December 2015, 12:30 – 14:00 (CET)

## 2015 overview of material resource efficiency policies in 31 European countries

- Update on status
- Selected country examples
- Eionet suggestions for follow up activities in 2016

# Participants today

Over thirty participants  
from 21 countries:

- Belgium
- Bulgaria
- Croatia
- Czech Republic
- Denmark
- Finland
- France
- Germany
- Hungary
- Iceland
- Lithuania
- Norway
- Poland
- Portugal
- Serbia
- Slovakia
- Slovenia
- Spain
- Sweden
- Turkey
- United Kingdom

# Plan for today:

- 2015 Eionet/EEA work on an overview of material resource efficiency policies – context and objectives, status
- Short presentations of selected examples from the “More from less” report – Belgium, the Czech Republic, Denmark, France, and Hungary
- A Question and Answer session
- Round of reflections on Eionet ideas for possible follow up activities from this work, to be implemented in 2016

# Update on 2015 work on material resource efficiency policies

- A big Thank You!
- Draft EEA report in Eionet review
- Final approval of country profiles by mid December
- Support to Commission's work on the Circular Economy
- What do we want to do next?

# Context

“Catalogue of material resource efficiency policies, objectives, targets and indicators in countries and at the EU level”

The main objectives:

- to stimulate the sharing of experience within Eionet in development of material resource efficiency policies.
- to broaden the knowledge base underpinning resource efficiency and the circular economy,
- to increase the understanding of policy approaches taken by the countries.

The approach and scope of work were developed in close consultation with Eionet, in order to reflect countries’ priorities and needs (Dec-Jan)

# 31 country profiles (Norway and the Netherlands as late entries)

# Examples of policy initiatives reported in country profiles

**Preliminary findings**

More from less — material resource efficiency in Europe  
2015 overview of policies, instruments and targets in 29 countries

European Environment Agency

Draft for Finet review - version 20 Oct 2015  
Please do not quote or disseminate

More from less — material resource efficiency in Europe  
2015 overview of policies, instruments and targets in 29 countries

European Environment Agency

Follow up work in 2016?

# Next steps

---

- Eionet review of the draft EEA report „More from less – material resource efficiency in Europe” (until the end of November)
- Final approval of the country profiles to be published on EEA website (until the end of December) - countries are also welcome to update the information if they so wish
- Reflections from Eionet about forms of possible 2016 follow up initiatives from this work (beyond the report and country profiles)
- Today's webinar – to present some of the findings from the report. But most importantly, to explore Eionet ideas and needs for a follow up next year.

# Presentations :

- BELGIUM: Flanders' Materials Programme,
- CZECH REPUBLIC: Vision 2024 initiative for the circular economy, and waste management programs in the Czech Republic
- DENMARK: A circular economy policy toolkit for Denmark
- FRANCE: recent initiatives addressing longer product life span (including planned obsolescence).
- HUNGARY: targets for resource efficiency in the National Environmental Technology Innovation Strategy (NETIS)

## **Some possible options for follow-up activities on “More from less” report by ETC/EEA team in 2016**

---

1. Organize a poll in Q2/2015 : EEA countries indicate their ‘favourite’ initiatives/examples described in the report they would like to hear presented and learn more from.
2. Use this input for the programming of EIONET Workshop in October 2016 and possibly also for a Webinar
3. Participation in regional events ( co-organized by several countries) : presentations, participation in debate
4. Present outcomes report at relevant national events

## Webinars on resource efficiency

[Zip download](#)

During the 2011 Eionet workshop on SCP and resource efficiency, several countries requested to complement the annual Eionet workshops with other, more regular, forms of interaction. One specific suggestion was to organize webinars, i.e., short internet-based seminars.

Developed as a joint effort by the Eionet, EEA, and ETC, the work on a series of webinars on resource efficiency was initiated in 2012. To date, webinars have been held on:

- national RE policies and good practice cases;
- objectives, targets and indicators for resource efficiency;
- industrial symbiosis;
- circular economy.

Documents from each webinar (background paper, presentations, participants list) as well as a video recordings of the webinars are available in the folders below.

The next webinar, on RMC and a European target for resource efficiency, will take place on 5 December 2014.

If you have any comments or suggestions concerning webinars, please contact Pawel Kazmierczyk ([pawel.kazmierczyk@eea.europa.eu](mailto:pawel.kazmierczyk@eea.europa.eu)) tel +45 333 67 122
