

IDENTIFIED NOMENCLATURE PROBLEMS AND RECOMMENDED NAMES

Under the contract issued from EEA to Wageningen Environmental Research including European Red List habitats project co-ordinators (2018)

For some habitats it was identified that the name appeared differently in the various products of the European Red List project 2016. Below you can find the recommended names, which is used in the EEA products addressing the European Red List of habitats. For some marine habitats, codes may also reveal some differences. For the codes used by EEA please see the link <https://www.eea.europa.eu/data-and-maps/data/european-red-list-of-habitats> EEA added 'RL' in front of terrestrial Red List codes in order to distinguish from EUNIS habitat classification codes. EEA added 'BS', 'MED', 'NEA' and 'BAL' in front of marine Red List codes and made a few changes in the codes in agreement with the Red List coordinators, in order to distinguish from EUNIS habitat classification codes and to deal with identical codes between marine regions and within a marine region.

Terrestrial habitats

| Code / name in the database | Code / name in the fact sheet | Code / name in the publication | Recommended name* |
|---|---|---|---|
| C1.2b Mesotrophic to eutrophic waterbody with angiosperms | C1.2b Mesotrophic to eutrophic waterbody with angiosperms | C1.2b Mesotrophic to eutrophic waterbody with vascular plants | Mesotrophic to eutrophic waterbody with vascular plants |
| E1.1e Perennial rocky grassland of the Italian Peninsula | E1.1e Submediterranean xeric open grassland of skeletal calcareous and ultramafic soils | E1.1e Perennial rocky grassland of the Italian Peninsula | Perennial rocky grassland of the Italian Peninsula |
| E1.1g Perennial grassland on rocky outcrops at low altitudes in Central and Southeastern Europe | E1.1g Perennial grassland on rocky outcrops at low altitudes in Central and Southeastern Europe | E1.1g Perennial rocky grassland of Central Europe and the Carpathians | Perennial rocky grassland of Central Europe and the Carpathians |
| E1.B Heavy-metal grassland of Western and Central Europe | E1.B Heavy-metal grassland of Western and Central Europe | E1.B Heavy-metal grassland in Western and Central Europe | Heavy-metal grassland in Western and Central Europe |
| E5.2a Thermophile woodland fringe of base-rich soils | E5.2a Thermophile woodland fringe of base-rich soils | E5.2a Thermophilous woodland fringe of base-rich soils | Thermophilous woodland fringe of base-rich soils |
| E5.2b Thermophile woodland fringe of acidic soils | E5.2b Thermophile woodland fringe of acidic soils | E5.2b Thermophilous woodland fringe of acidic soils | Thermophilous woodland fringe of acidic soils |
| F6.1b Western acidophilous garrigue | F6.1b Western acidophilous garrigue | F6.1b Western acidophilous garrigue | Western acidophilous garrigue |

| | | | |
|--|--|--|--|
| G1.9a Boreal-nemoral mountain Betula and Populus tremula woodland on mineral soils | G1.9a Boreal-nemoral mountain Betula and Populus tremula woodland on mineral soils | G1.9a Temperate and boreal mountain Betula and Populus tremula woodland on mineral soils | Temperate and boreal mountain Betula and Populus tremula woodland on mineral soils |
| G1.9b Mediterranean mountain Betula and Populus tremula woodland on mineral soil | G1.9b Mediterranean mountain Betula and Populus tremula woodland on mineral soil | G1.9b Mediterranean mountain Betula and Populus tremula woodland on mineral soils | Mediterranean mountain Betula and Populus tremula woodland on mineral soils |
| G3.4a Temperate continental Pinus sylvestris woodland | G3.4a Temperate continental Pinus sylvestris woodland | G3.4a Temperate and continental Pinus sylvestris woodland | Temperate and continental Pinus sylvestris woodland |
| G3.4c Mediterranean montane Pinus nigra-Pinus sylvestris woodland | G3.4c Mediterranean montane Pinus nigra-Pinus sylvestris woodland | G3.4c Mediterranean montane Pinus sylvestris-Pinus nigra woodland | Mediterranean montane Pinus sylvestris-Pinus nigra woodland |
| H2.1 Boreal and arctic siliceous scree | H2.1 Boreal and arctic siliceous scree | H2.1 Boreal and arctic siliceous scree and block field | Boreal and arctic siliceous scree and block field |
| H2.4 Temperate high-mountain baserich scree | H2.4 Temperate high-mountain baserich scree | H2.4 Temperate high-mountain base-rich scree | Temperate high-mountain base-rich scree |
| H2.6a Temperate, lowland to sub-montane base-rich scree | H2.6a Temperate, lowland to sub-montane base-rich scree | H2.6a Temperate, lowland to montane base-rich scree | Temperate, lowland to montane base-rich scree |
| H3.2f Temperate ultramafic inland cliffs | H3.2f Temperate ultramafic inland cliffs | H3.2f Temperate ultramafic inland cliff | Temperate ultramafic inland cliff |
