

Habitat code: **2270**
 Habitat name: **Wooded dunes with Pinus pinea and/or Pinus pinaster**

Habitat group: **dunes habitats**
 Regions: **ATL CON MED**

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Biogeographic Region | Conservation status assessment | | | | | Km ² | Trend in area |
|------|----------------------|--------------------------------|------|----------------------|------------------|---------|-----------------|---------------|
| | | Range | Area | Structure & function | Future prospects | Overall | | |
| EU25 | ATL | | | | | | 155 | X |
| EU25 | CON | | | | | | 25 | = |
| EU25 | MED | | | | | | >286 | |

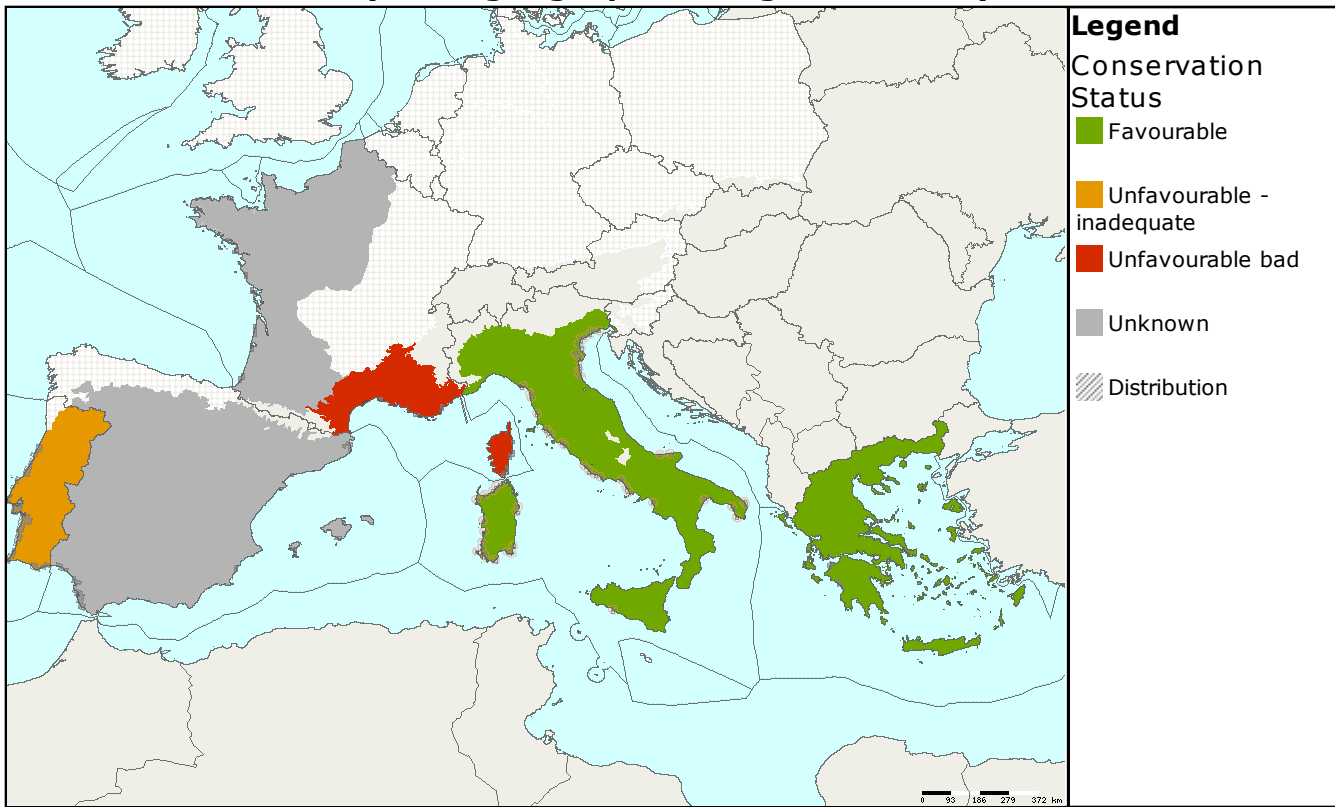

Dunes with stone pine (*Pinus pinea*; sometimes known as the umbrella pine) &/or maritime pine (*Pinus pinaster*) are found along the coasts of all Mediterranean countries except Malta, including the Continental region of northern Italy. They are also found along the Atlantic coast of western France.

Assessed as 'unfavourable inadequate' for the Mediterranean region due to the 'unfavourable inadequate' status of Range and Area of habitat, other parameters are 'unknown'. The assessment is largely due to the reported status in Portugal which hosts a large proportion of this habitat. However the conservation status is 'unfavourable bad' in France and 'favourable' Greece and Italy.

For the Continental region (Italy) the habitat is reported as 'favourable' while in the Atlantic region (only France) all parameters are 'unknown'.

Better information required.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Biogeographic Region | Conservation status assessment | | | | | Km ² | Trend in area | Data quality |
|----|----------------------|--------------------------------|------|----------------------|------------------|---------|-----------------|---------------|--------------|
| | | Range | Area | Structure & function | Future prospects | Overall | | | |
| FR | ATL | | | | | | 155 | X | 2 |
| IT | CON | | | | | | 25 | = | 1 |
| EL | MED | | | | | | 8.6 | = | 1 |
| ES | MED | | | | | | 100.91 | N/A | 2 |
| FR | MED | | | | | | 25 | - | 2 |
| IT | MED | | | | | | 151 | = | 1 |
| PT | MED | | | | | | N/A | - | |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
