

Habitat code: **3120**
 Habitat name: **Oligotrophic waters containing very few minerals generally on sandy soils of the West Mediterranean, with Isoetes spp.**

Habitat group: **freshwater habitats**
 Regions: **ATL CON MED**

Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km ²	Trend in area
		Range	Area	Structure & function	Future prospects	Overall		
EU25	ATL	Orange	Orange	Grey	Orange	Orange	6	=
EU25	CON	Green	Green	Grey	Orange	Orange	0.6	X
EU25	MED	Grey	Orange	Grey	Grey	Orange	>7	-

Nutrient poor lakes with amphibious vegetation dominated by quillworts (*Isoetes spp*) found on sandy soils of the western Mediterranean and warmer parts of the Atlantic region in France and an adjacent part of the Continental region. Temporary ponds with similar vegetation are the priority habitat 3170.

Assessed as 'unfavourable-inadequate' in the Mediterranean region although close to the thresholds. Better information from Portugal, which reported three parameters as 'unknown' and gave no habitat area, would allow a more accurate assessment.

'Unfavourable-bad' in France as a result of habitat destruction and inappropriate management.

Also 'unfavourable-inadequate' in the other two regions.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km ²	Trend in area	Data quality
		Range	Area	Structure & function	Future prospects	Overall			
FR	ATL	Orange	Orange	Grey	Orange	Orange	6	=	2
FR	CON	Green	Green	Grey	Orange	Orange	0.6	X	2
FR	MED	Orange	Red	Orange	Red	Red	6	-	2
IT	MED	Green	Orange	Grey	Grey	Orange	1	=	2
PT	MED	Grey	Green	Grey	Grey	Grey	N/A	=	

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
