

Habitat code: **3290**
 Habitat name: **Intermittently flowing Mediterranean rivers of the Paspalo-Agrostidion**

Habitat group: **freshwater habitats**
 Regions: **CON MED**

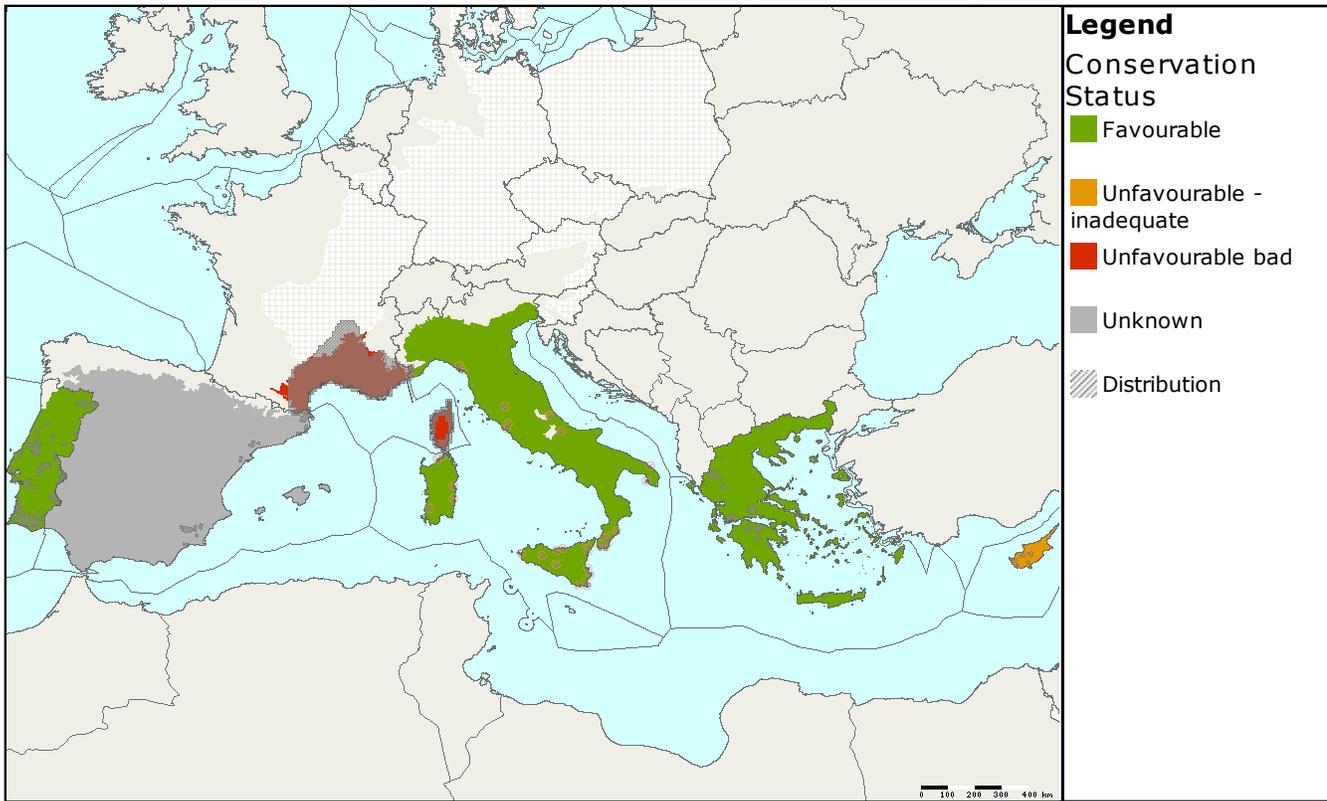

Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km ²	Trend in area
		Range	Area	Structure & function	Future prospects	Overall		
EU25	CON						1	=
EU25	MED							

This is a habitat typical of rivers in the Mediterranean region which only flow during part of the year, rivers which continue to flow all year are included in habitat type 3280. It is also present in the Continental region of Italy.
 Due to incomplete data from every country it is not possible to assess this habitat for the Mediterranean region although with 'unfavourable-bad' from France and 'unfavourable-inadequate' from Cyprus it is unlikely to be favourable.
 Assessed as 'favourable' for the Continental region of Italy.
 Better and more complete information required.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Biogeographic Region	Conservation status assessment					Km ²	Trend in area	Data quality
		Range	Area	Structure & function	Future prospects	Overall			
IT	CON						1	=	2
CY	MED						0.15	X	2
EL	MED						20	=	1
ES	MED						N/A	X	
FR	MED						11	-	2
IT	MED						44	=	2
PT	MED						N/A	+	

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
