

Species name: **Podarcis pityusensis**
Annex: **II, IV**

Species group: **Amphibians & Reptiles**
Regions: **MED**

Assessments of conservation status at the European level (all biogeographical regions - EU25)

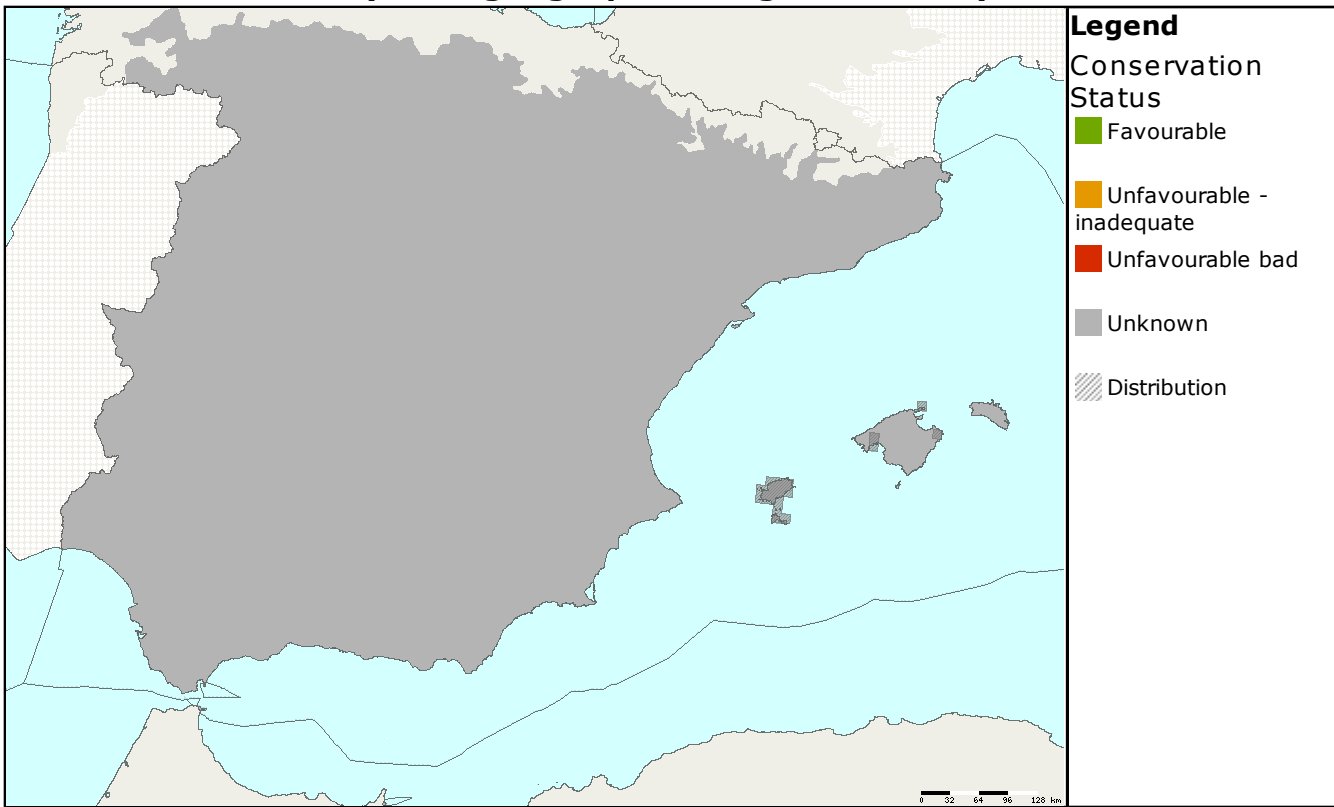

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | MED | | | | | | 20000000 indiv. | = |

The Ibiza Wall Lizard is endemic to Ibiza and Formentera islands and their coastal rocky islets, Balearic Islands, Spain. It was introduced to Mallorca and to some other places in the continental Spain. It inhabits various natural and cultural, mostly warm and dry habitats with the shrub cover.

It occurs only in the Mediterranean biogeographical region. The conservation status is 'unknown'. The information on the status of this species and on the threats is incomplete. However the status of the populations inhabiting the main islands is favourable. A number of the populations found on islets are also in decline. The species is included in the 2008 IUCN Red List in the category 'near threatened', mainly due to its restricted occurrence.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|----------------------------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| ES | MED | | | | | | 20000000 - 20000000 indiv. | = | 2 |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
