Species name:Rana dalmatina Annex: IV

Species group: Amphibians \& Reptiles Regions: ALP ATL BOR CON MED PAN

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment |  |  |  |  | Population size \& unit | Population Trend |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Range | Population | Habitat | Future prospects | Overall |  |  |
| EU25 | ALP |  |  |  |  |  | 845 grids |  |
| EU25 | ATL |  |  |  |  |  | 2115 grids |  |
| EU25 | BOR |  |  |  |  |  |  | - |
| EU25 | CON |  |  |  |  |  | 3166 grids |  |
| EU25 | MED |  |  |  |  |  | 1674 grids |  |
| EU25 | PAN |  |  |  |  |  | 666 grids |  |

The agile frog is widely distributed in much of Europe and northern Turkey. It is found in glades and open sites within light deciduous woodland. It is generally threatened by the drainage and eutrophication of breeding sites.
In Atlantic, Boreal and Continental regions its conservation status is reported as 'unfavourable-bad'. Overall assessment is 'unfavourable-inadequate' in Alpine, Mediterranean and Pannonian regions. All parameters are reported as 'unknown' by Spain and Poland and for the Alpine region by Italy indicating that better information is required for this species.
The species is listed as 'Least Concern' by IUCN in view of its wide distribution. In Spain it is an endangered species and is extremely rare.

# Assessments of conservation status as reported by Member states (all biogeographical regions - EU25) 

| MS | Region | Conservation status assessment |  |  |  |  | Size\&unit | Population trend | Data quality |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Range | Population | Habitat | Future <br> prospects | Overall |  |  |  |
| AT | ALP |  |  |  |  |  | 3800-38000 indiv. | X | 3 |
| DE | ALP |  |  |  |  |  | 9-(9) x | X | 3 |
| FR | ALP |  |  |  |  |  | 4048-10810x | - | 3 |

| SK | PAN |  |  |  |  |  | 95-120x | = | 2 |

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at http://biodiversity.eionet.europa.eu/article17
