

Species name: **Triturus marmoratus**
Annex: **IV**

Species group: **Amphibians & Reptiles**
Regions: **ALP ATL CON MED**

Assessments of conservation status at the European level (all biogeographical regions - EU25)

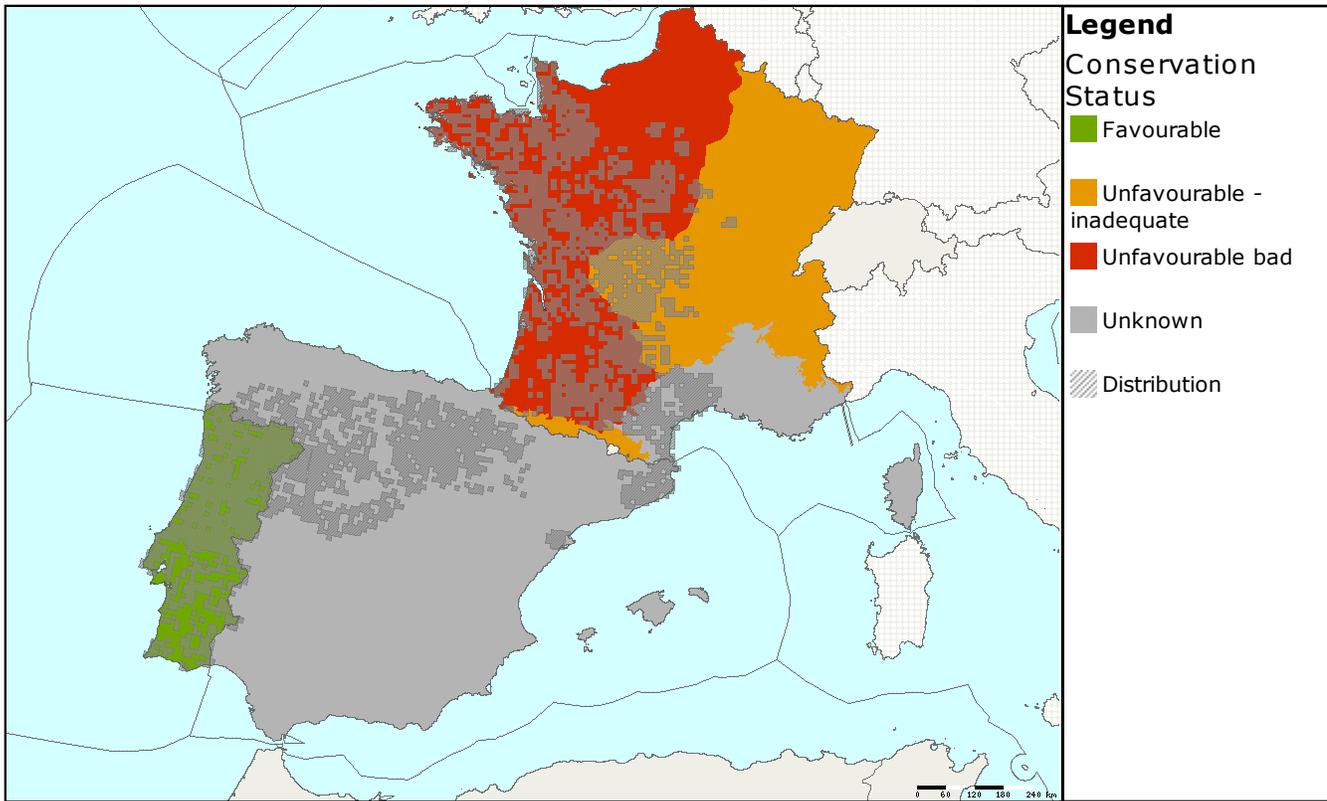

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						41 grids	
EU25	ATL						1284 grids	
EU25	CON							
EU25	MED						1673 grids	

The marbled newt is distributed only in France, Portugal and Spain. It uses aquatic habitats including well-vegetated ponds, pools, ditches and streams generally within dry woodlands, heath land, fields and rough grassland.

It is reported by the three above mentioned countries in four bio-geographical regions. For Alpine and Continental biogeographical regions overall assessments are 'unfavourable-inadequate'. Within the Atlantic region overall assessment is impacted by French report resulting in 'unfavourable-bad' conclusion. For Mediterranean biogeographical region due to lack of data assessment is 'unknown'. However, species is reported as 'favourable' by Portugal for both Atlantic and Mediterranean biogeographical regions. According to IUCN species is still considered 'least concern' but its population is decreasing.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
ES	ALP						4 - 4 loc.	X	3
FR	ALP						5 - 12 x	N/A	2
ES	ATL						251 - (251) x	N/A	3
FR	ATL						902 - 1733 x	-	3
PT	ATL						100000 - (100000) indiv.	=	2
FR	CON						271 - 401 x	N/A	3
ES	MED						776 - (776) loc.	-	2
FR	MED						77 - 215 x	+	2
PT	MED						100000 - (100000) indiv.	=	2

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
