

Species name: **Aphanius fasciatus**
Annex: **II**

Species group: **Fish**
Regions: **CON MED MMED**

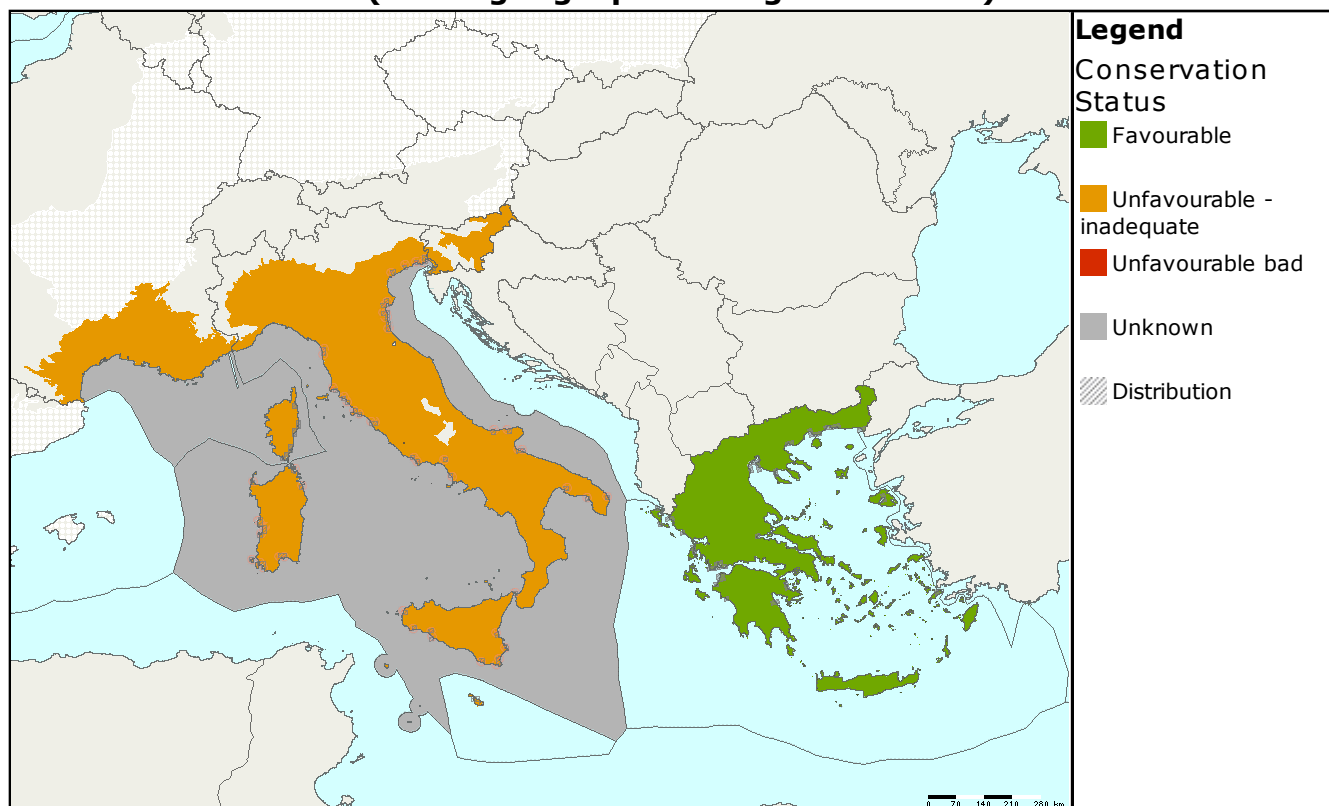

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | MED | Orange | Orange | Grey | Orange | Orange | 105 grids | - |
| EU25 | CON | Orange | Orange | Grey | Orange | Grey | 18 grids | x |
| EU25 | MMED | Blue | Blue | Blue | Blue | Blue | | |

The south European toothcarp is distributed in all countries of the Mediterranean region to the exception of the Iberic Peninsula. It is restricted to coastal waters including islands. In the Mediterranean region, the status of conservation is assessed as "unfavourable-inadequate" despite some individual parameters are reported as "favourable" by Greece and Malta. For the Continental and Marine Mediterranean region, the overall assessment is unknown". In general, better information is required for the species. It is assessed as "Least Concern" by IUCN.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|---------------------------|---------------------------|---------------------------|---------------------------|--------------------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| IT | CON | Unfavourable - inadequate | Unfavourable - inadequate | Unknown | Unfavourable - inadequate | Unfavourable - inadequate | 18 - 18 grids | - | 2 |
| SI | CON | Favourable | Unknown | Unfavourable - inadequate | Favourable | Unfavourable - inadequate | 3 - (3) grids | X | 2 |
| EL | MED | Favourable | Favourable | Unknown | Favourable | Favourable | (2000) - 2000 area | = | 2 |
| FR | MED | Unfavourable - inadequate | Unfavourable - inadequate | Unknown | Unfavourable - inadequate | Unfavourable - inadequate | 19 - 19 loc. | - | 1 |
| IT | MED | Unfavourable - inadequate | Unfavourable - inadequate | Unknown | Unfavourable - inadequate | Unfavourable - inadequate | 46 - 46 grids | - | 2 |
| MT | MED | Favourable | Favourable | Unfavourable - inadequate | Favourable | Unfavourable - inadequate | 4 - 4 loc. | = | 2 |
| FR | MMED | Unknown | Unknown | Unknown | Unknown | Unknown | N/A x | N/A | 3 |
| IT | MMED | Unknown | Unknown | Unknown | Unknown | Unknown | N/A x | X | 3 |

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
