

Species name: **Coregonus spp.**
Annex: **V**

Species group: **Fish**
Regions: **ALP CON**

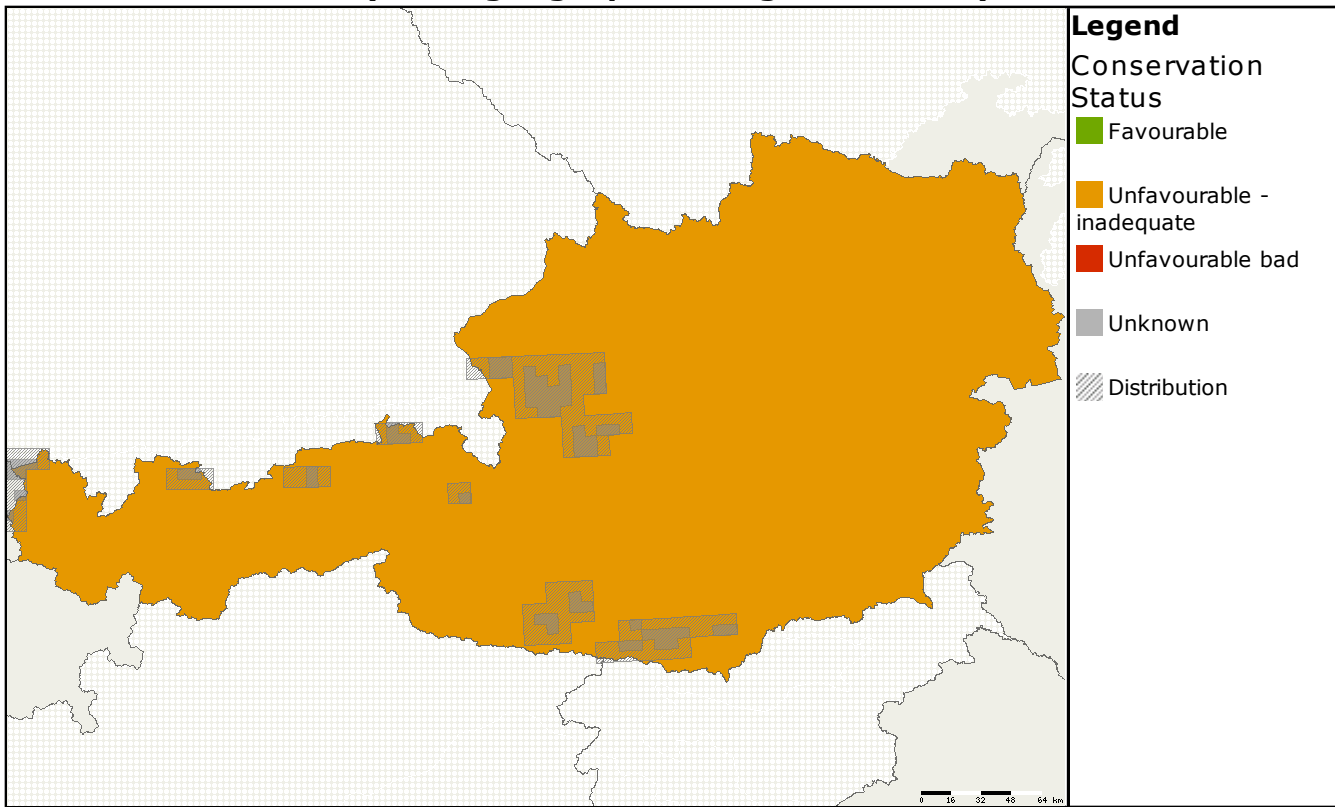

Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	CON							
EU25	ALP							

Genus *Coregonus* is included in the Annex V of the Habitats Directive. From taxonomical viewpoint it is a very problematical group of freshwater fish in Europe. Austria has provided only one report for all the species of the genus, although several species of *Coregonus* and also their hybrids occurs in this country. Other Member states have reported at the species level. All reported species are evaluated separately.

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
AT	ALP						1000000 - 10000000 x	=	2
AT	CON						10000 - 100000 x	X	3

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
