

Species name: **Pomatoschistus canestrini**  
Annex: **II**

Species group: **Fish**  
Regions: **CON MMED**

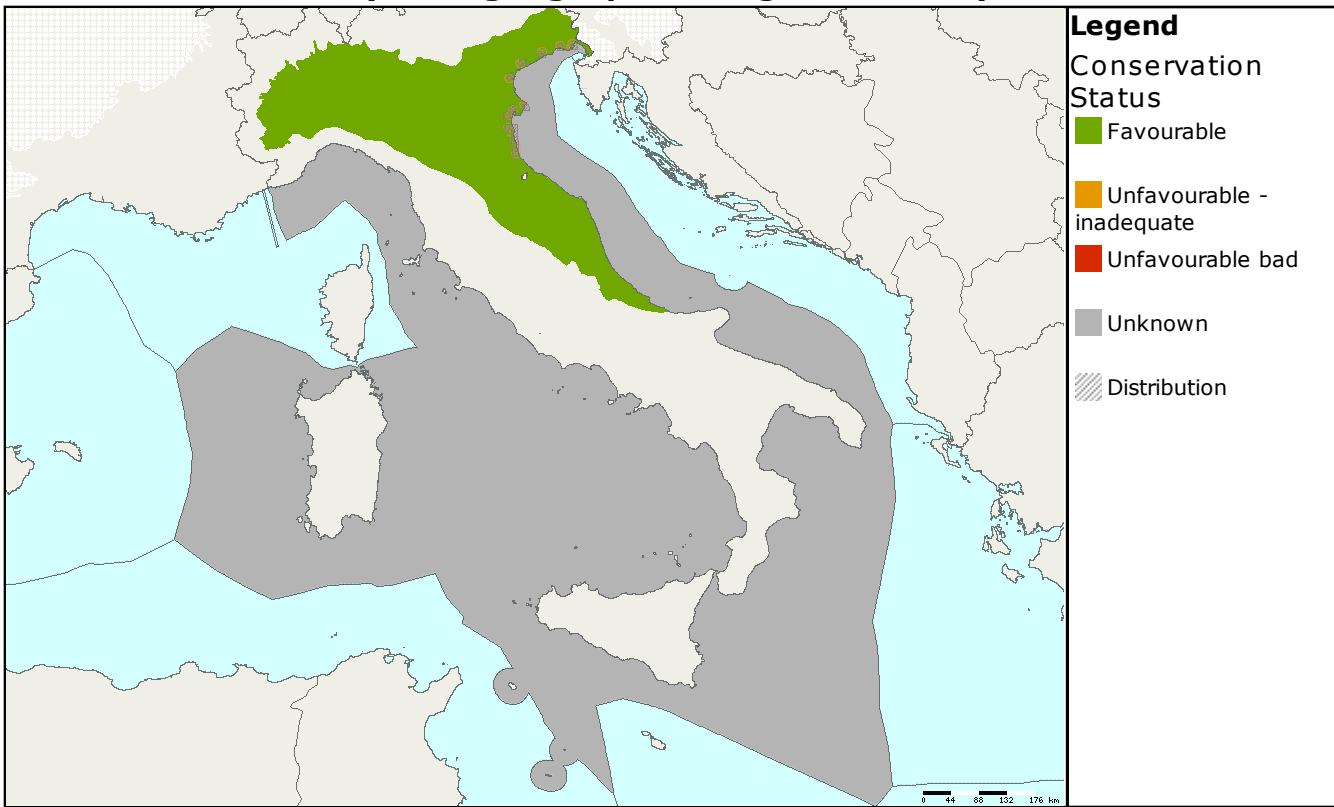

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS   | Region | Conservation status assessment |            |         |                  |         | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
|      |        | Range                          | Population | Habitat | Future prospects | Overall |                        |                  |
| EU25 | CON    |                                |            |         |                  |         |                        | =                |

CON: Only found on the Adriatic coast of IT within the EU (also Croatia, Montenegro & Albania coasts) Assessed as 'favourable' although habitat used by the sp is poorly known  
Data Deficient in IUCN world RDB

**Assessments of conservation status as reported by Member states  
(all biogeographical regions - EU25)**

| MS | Region | Conservation status assessment |            |         |                  |         | Size&unit     | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|---------------|------------------|--------------|
|    |        | Range                          | Population | Habitat | Future prospects | Overall |               |                  |              |
| IT | CON    |                                |            |         |                  |         | 14 - 14 grids | =                | 2            |
| IT | MMED   |                                |            |         |                  |         | N/A x         | X                | 3            |

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
