

Species name: **Isophya costata**
Annex: **II, IV**

Species group: **Invertebrates**
Regions: **PAN**

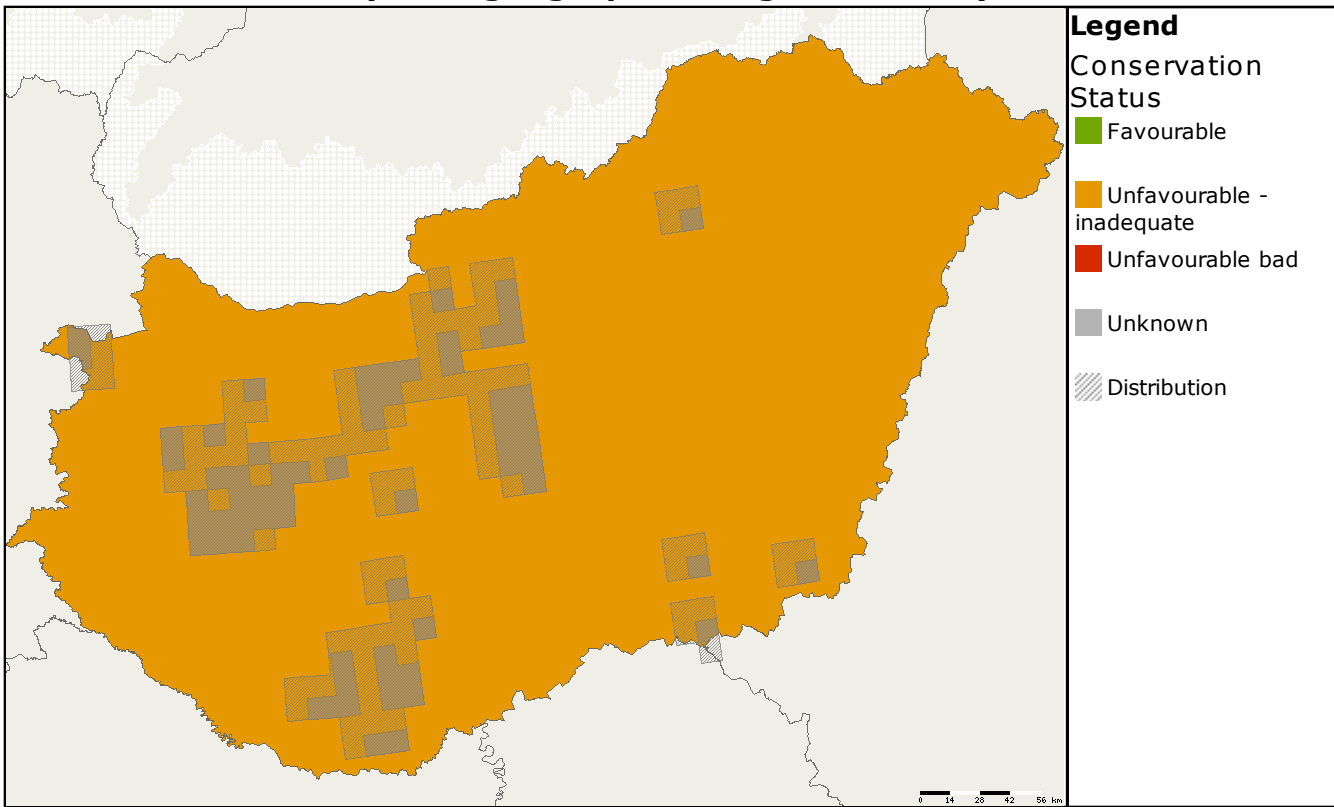

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|---|---|---|---|---|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | PAN | | | | | | 10000 - 500000 indiv. | X |

PAN: The species is reported only by one country (Hungary) and overall assessment, which is "inadequate", is influenced by "inadequate" status of habitat area.

**Assessments of conservation status as reported by Member states
(all biogeographical regions - EU25)**

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|-----------------------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| HU | PAN | | | | | | 10000 - 500000 indiv. | X | 2 |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
