

Species name: **Ophiogomphus cecilia**  
Annex: **II, IV**

Species group: **Invertebrates**  
Regions: **ALP ATL BOR CON MED PAN**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

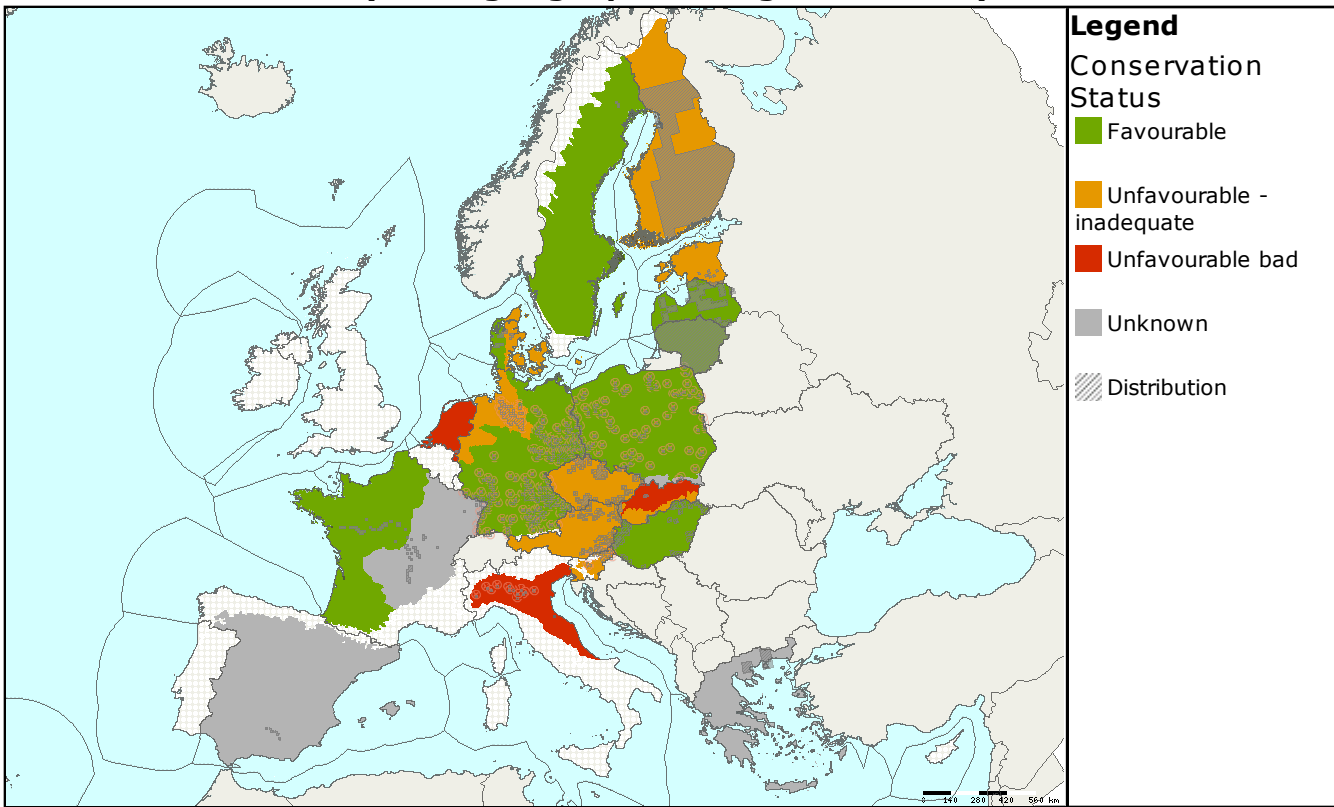

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						42 grids	
EU25	BOR						2667 grids	
EU25	CON						1015 grids	
EU25	MED						73 grids	
EU25	PAN						218 grids	
EU25	ATL						130 grids	

*Ophiogomphus Cecilia* is a dragonfly widespread in central Asia, central and eastern Europe, extending north to the arctic circle in Finland.

The overall status of conservation is ‘unfavourable-inadequate’ in Alpine, Boreal, Continental and Atlantic regions despite many individual parameters are reported as ‘favourable’ by the countries for Atlantic and Boreal regions. In Pannonian region the overall assessment is ‘favourable’. Only Greece and Spain are reporting for the Mediterranean region and all parameters are ‘unknown’.

The species is listed as ‘Lower Risk/least concern’ by IUCN.

**Assessments of conservation status as reported by Member states  
(all biogeographical regions - EU25)**

MS	Region	Conservation status assessment					Size&unit	Population trend	D: qu.
