

Species name: **Sympecma braueri**  
Annex: **IV**

Species group: **Invertebrates**  
Regions: **ALP ATL BOR CON**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

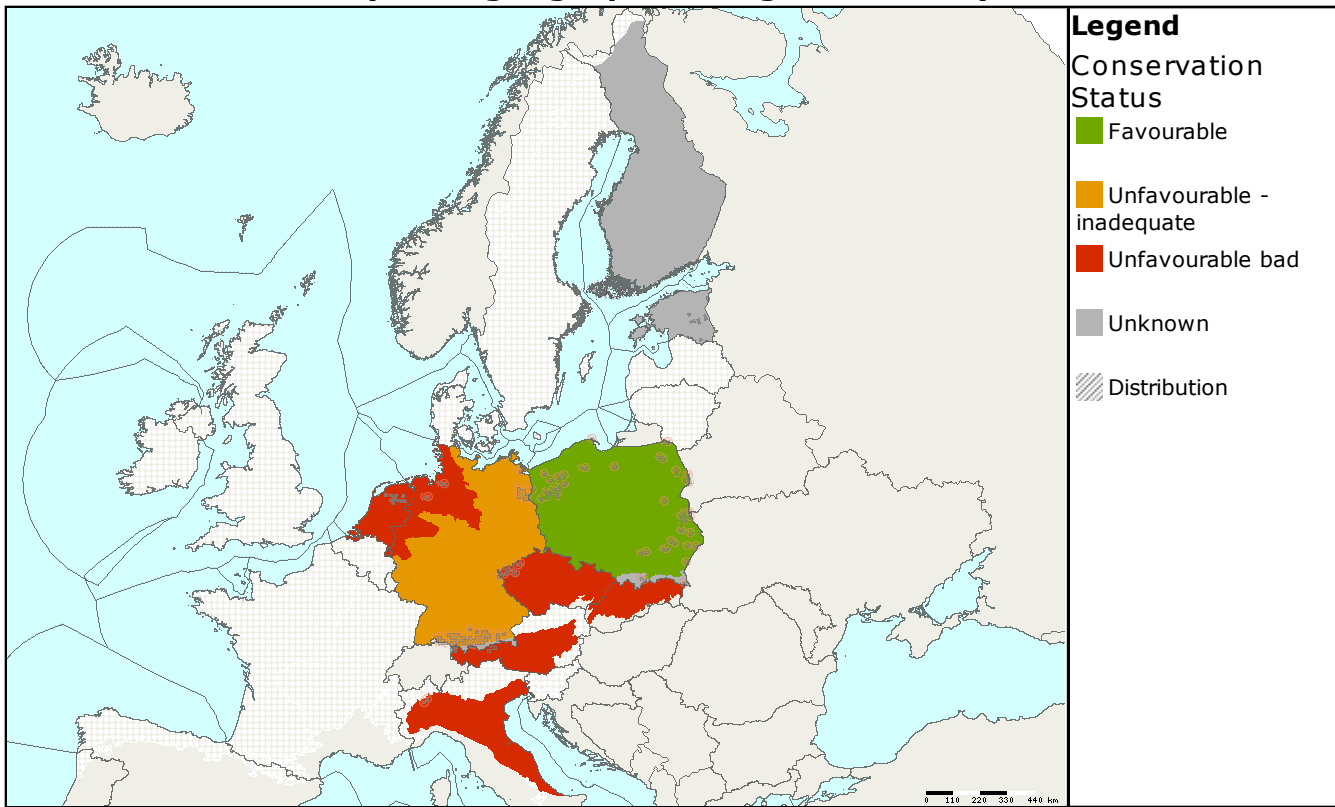

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						52 grids	
EU25	BOR							X
EU25	CON						170 grids	
EU25	ATL						17 grids	-

*Sympecma braueri* is a dragonfly species occurring in central Europe.

In the Alpine biogeographical region the species is reported by Austria, Germany, Poland and Slovakia. Its conservation status in Alpine region is 'unknown'. This is due to partial 'unknown' assessments in Germany, where hosts the majority of the species distribution area (85.6%). In the Boreal biogeographical region the species is reported only by Estonia. The conservation status in Boreal region is also 'unknown'. For the Atlantic biogeographical region the species is reported by Germany and Netherlands. The conservation status of this dragonfly in Atlantic region is 'unfavourable -bad', same as in both countries. The occurrence of the species in Continental biogeographical region is reported by Czech Republic, Germany, Italy and Poland. However, dominance of German data influenced the overall assessment to be 'unfavourable-inadequate'. In Czech Republic and Italy the conservation status is 'unfavourable-bad', but its distribution area in these countries is very small.

## Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
AT	ALP						200 - 1000 indiv.	-	3
DE	ALP						1 - (1) x	X	3
PL	ALP						3 - 3 loc.	X	3
SK	ALP						1 - 1 loc.	-	1
DE	ATL						1 - (1) x	-	2
NL	ATL						10000 - 100000 indiv.	-	2
EE	BOR						16 - 16 grids	X	3
FI	BOR						- 12 loc.	X	2
CZ	CON						11 - 11 loc.	+	3
DE	CON						116 - (116) x	X	3
IT	CON						2 - 11 loc.	-	2
PL	CON						1800 - 2400 loc.	=	2

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
