

Species name: **Armeria helodes**
Annex: **II*, IV**

Species group: **Plants**
Regions: **CON**

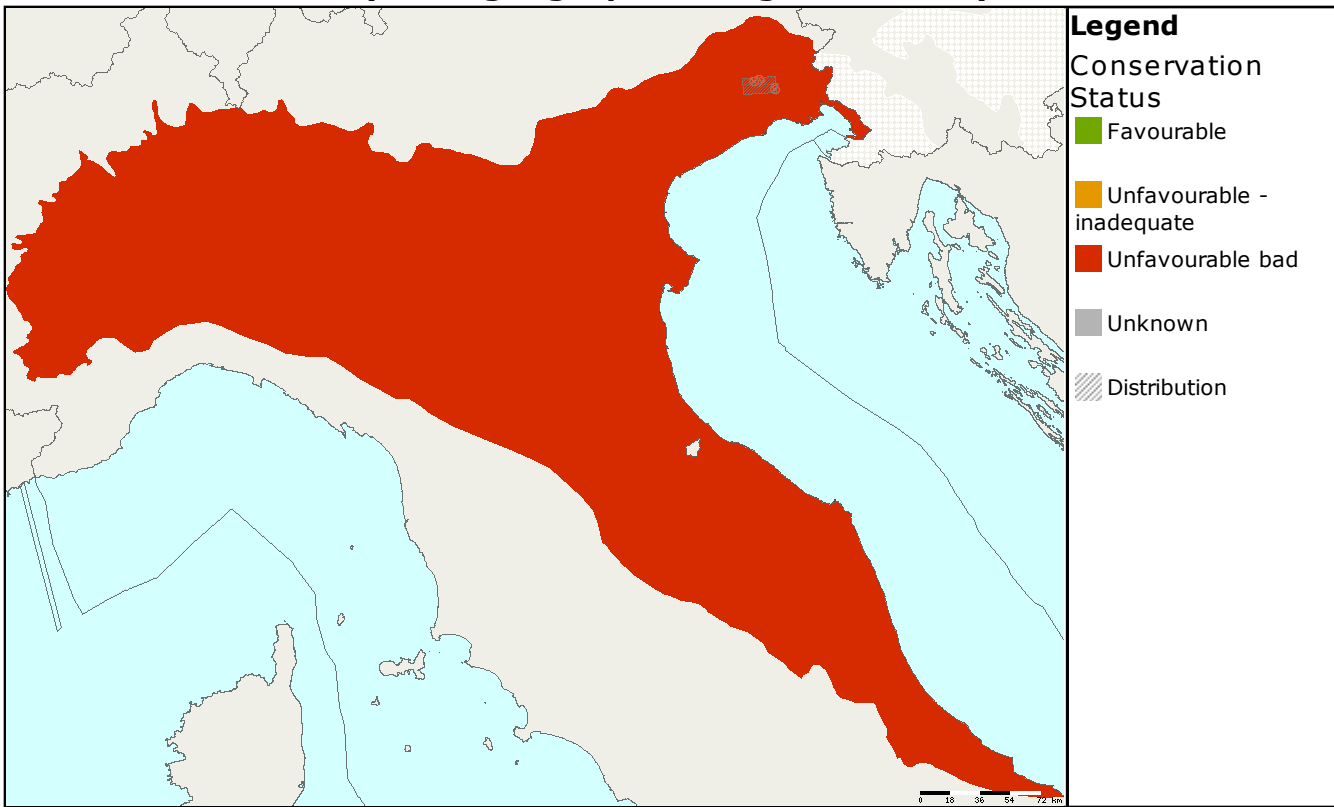

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | CON | | | | | | 1306 indiv. | - |

CON: The overall assessment is "unfavourable - bad", population, habitat and future prospects were assessed in this category as well. Endemic species of the Risorgive area of the Friuli Region (NE Italy) growing in bog habitat. Precise information about the population size is given; trend is severely decreasing.

**Assessments of conservation status as reported by Member states
(all biogeographical regions - EU25)**

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|--------------------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| IT | CON | | | | | | 1306 - 1306 indiv. | - | 1 |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
