

Species name: **Borderea chouardii**
Annex: **II*, IV**

Species group: **Plants**
Regions: **MED**

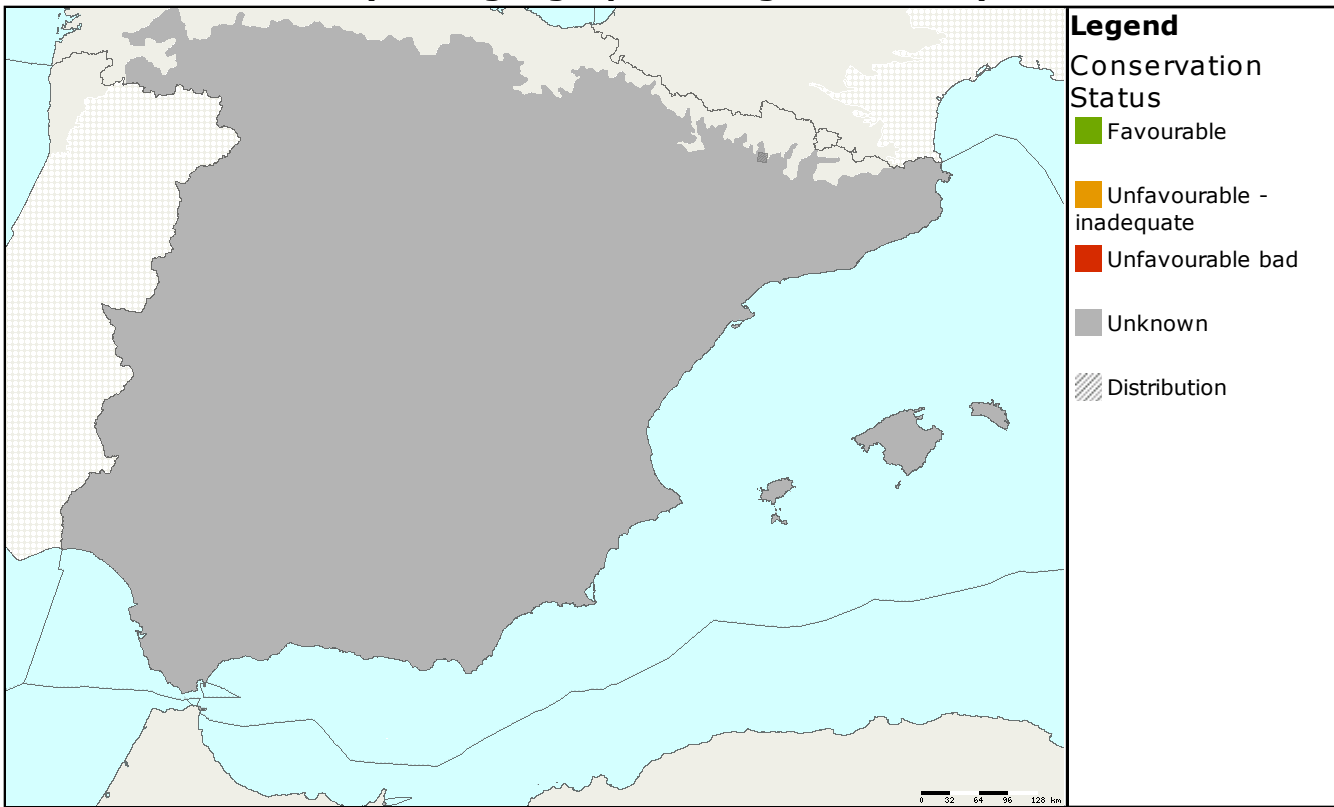

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | MED | | | | | | 2068 - 2780 indiv. | + |

MED: The overall assessment is "unknown" as ES assessed all parameters in this category. ES reported increasing trend both for population and range. Species endemic to ES.

**Assessments of conservation status as reported by Member states
(all biogeographical regions - EU25)**

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|--------------------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| ES | MED | | | | | | 2068 - 2780 indiv. | + | 1 |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
