The ladies slipper orchid is a widespread plant, found from Europe east through Asia to the Pacific Ocean. It is found in open woodland on moist calcareous soils. It has declined over much of the European part of its range, and as a result is legally protected in a number of countries.

Overall assessment is 'unfavourable-bad' for Atlantic region and 'unfavourable-inadequate' for Continental, Mediterranean, Pannonian and Boreal regions. The best conservation status is in Alpine region where it was assessed as 'favourable'. Species was not assessed by IUCN.
