

Species name: **Leontodon boryi**
Annex: **II, IV**

Species group: **Plants**
Regions: **MED**

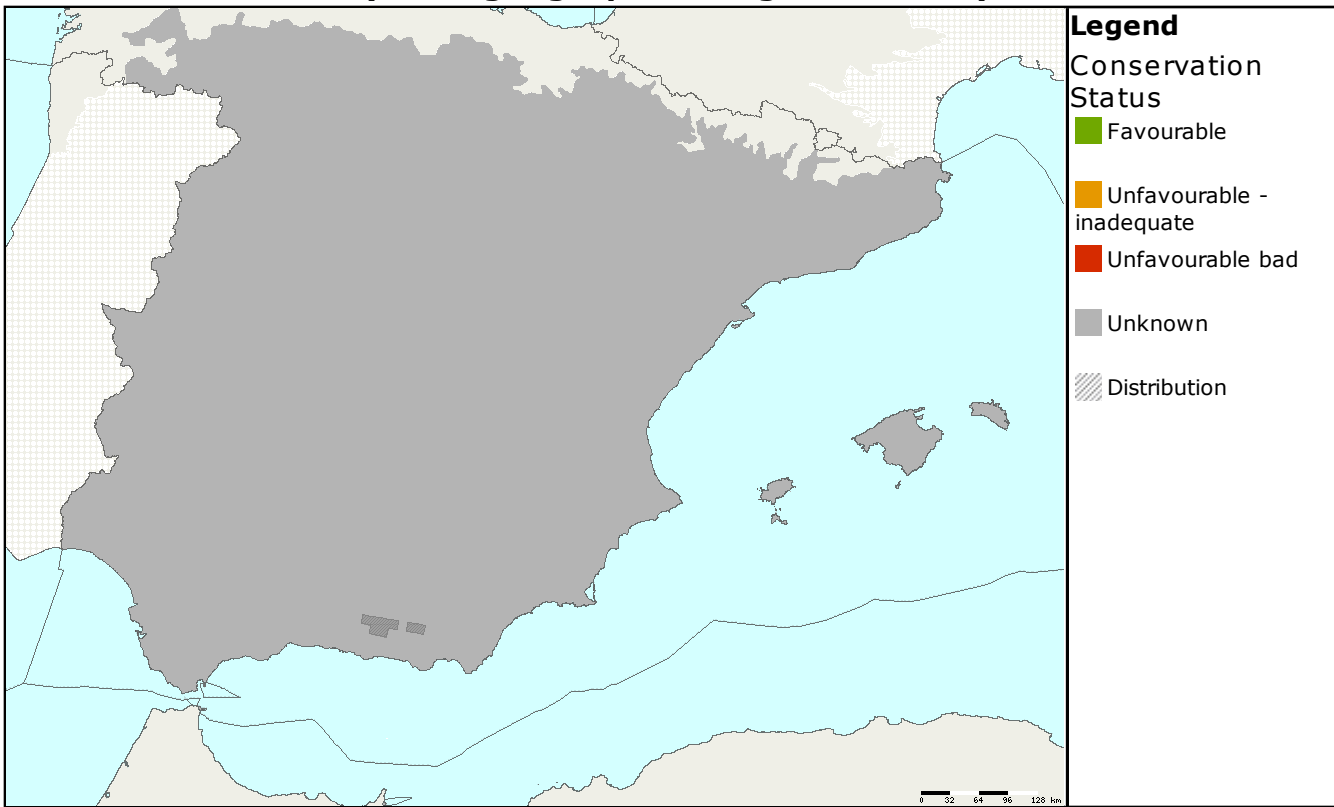

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | MED | | | | | | 0 - 1 area | = |

MED: Endemic to the Sierra Nevada, Sierra de la Sagra and the Sierra de Gador in southern Spain. Little information reported by Spain so assessed as 'unknown' Better information required Population in the Sierra Nevada is estimated at 600.000 to 800.000 individuals with no particular threats See http://www.juntadeandalucia.es/medioambiente/web/Bloques_Tematicos/Publicaciones_Divulgacion_Y_Noticias/Documentos_Tecnicos/Flora_S_Nevada/pdfs/flora_amenazada_4_10.pdf

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|-----------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| ES | MED | | | | | | - 1 area | = | 2 |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
