

Species name: **Orthothecium lapponicum**  
Annex: **II**

Species group: **Plants**  
Regions: **ALP**

## Assessments of conservation status at the European level (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Population size & unit	Population Trend
		Range	Population	Habitat	Future prospects	Overall		
EU25	ALP						8 grids	

*Orthothecium lapponicum* is a plant that occurs in the Alpine region in Finland and Sweden. Its status of conservation is assessed as “favourable” because of the Swedish report. The Finish report has a minor impact on the overall assessment.

## Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

MS	Region	Conservation status assessment					Size&unit	Population trend	Data quality
		Range	Population	Habitat	Future prospects	Overall			
FI	ALP						1 - 2 loc.	X	2
SE	ALP						10 - 10 grids	=	2

Data quality is based on as assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at
