

Species name: **Ramonda serbica**
Annex: **IV**

Species group: **Plants**
Regions: **MED**

Assessments of conservation status at the European level (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Population size & unit | Population Trend |
|------|--------|--------------------------------|------------|---------|------------------|---------|------------------------|------------------|
| | | Range | Population | Habitat | Future prospects | Overall | | |
| EU25 | MED | | | | | | | X |

MED: Only in NW Greece within the EU25, also in Bulgaria. Outside the EU Serbia, FYOM & Albania Often known as 'resurrection plant' as it can withstand severe dehydration Very little information reported by Greece and so assessed as 'unknown' Better information required

Assessments of conservation status as reported by Member states (all biogeographical regions - EU25)

| MS | Region | Conservation status assessment | | | | | Size&unit | Population trend | Data quality |
|----|--------|--------------------------------|------------|---------|------------------|---------|-----------|------------------|--------------|
| | | Range | Population | Habitat | Future prospects | Overall | | | |
| EL | MED | | | | | | N/A x | X | |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor

This information is derived from the Member State national reports submitted to the European Commission under Article 17 of the Habitats Directive in 2007 and covering the period 2001-2006. More detailed information is available at <http://biodiversity.eionet.europa.eu/article17>
