**Assessments of conservation status as reported by Member states  
(all biogeographical regions - EU25)**

|----|--------|--------------------------------|------------|---------|------------------|---------|--------------------|------------------|--------------|
|    |        | Range                          | Population | Habitat | Future prospects | Overall |                    |                  |              |

Data quality is based on an assessment by each Member State, 1 = good, 2 = medium, 3 = poor
