## IMPORTANT NOTE

This QA/QC report is provided for information only. No additional delivery is required from the Member State. The reporting envelope is now closed and you are not able to upload any files.

However, National Data Coordinators are invited to use the Article 17 Consultation Tool to review the national data. The review process allows you to draw attention to new information or to significant errors in the Article 17 report. In doing so, the EU biogeographical assessments will be more accurate.

Please consult the background paper and user manual available at [http://circa.europa.eu/Public/irc/env/monnat/library?l=/habitats\\_reporting/reporting\\_2001-2007/internet\\_consultation&vm=detailed&sb=Title](http://circa.europa.eu/Public/irc/env/monnat/library?l=/habitats_reporting/reporting_2001-2007/internet_consultation&vm=detailed&sb=Title) to see how you can correct possible errors using the web tool (<http://biodiversity.eionet.europa.eu/article17>)

## GENERAL REPORT - Data not compliant with QA/QC procedures

### 3.1 Management tools - Art. 6(1) - Management plans and Management bodies

*Issue 31*

- 1 . Zero values were given for the number of sites with comprehensive management plan, number of sites for which management plans are prepared and number of sites for which management bodies have been established. No sites were listed in the respective categories.  
It will be interpreted that there are no sites for which comprehensive management plans have been approved, are prepared and no sites for which management bodies have been created.

### 3.3 Management tools - Art. 6(1) - Non-territorial planning instruments

*Issue 33*

- 1 . The value of zero was given as the number of sites with non-territorial planning instruments. No sites were listed under the respective title. This will be interpreted that non-planning instruments were not applied.

### 6. Measures taken in relation to approval of plans and projects - Art. 6(3,4)

*Issue 60*

- 1 . A value of zero was given for the number of projects for which compensation measures were necessary and Commission opinion was requested. No sites were listed in the relevant categories. It will be interpreted that compensation measures were not necessary and that there was no case where Commission opinion was requested.
