

André Jol, EEA Head of Group Climate change impacts,
vulnerability and adaptation

12th Eionet workshop on climate change impacts,
vulnerability and adaptation, 6-7 June 2018

EEA intro and activities CC IVA 2017-2018

EEA CC impacts, vulnerability and adaptation group and ETC CCA

André Jol
Head of group

Blaz Kurnik
Indicators, CCA/DRR, agriculture

Hans-Martin Füssel
CC impacts and vulnerability,
indicators

Sergio Castellari
CCA/DRR, transnational
adaptation

Corine Guma
Secretary group/programme

Aleksandra Kazmierczak
Urban adaptation

José Ramón Picatoste Ruggeroni
Climate-ADAPT

Wouter Vanneuville
National adaptation

Supported by ETC CCA (climate change impacts, vulnerability and adaptation)

Participation in the workshop:

- Silvia Medri, ETC manager (CMCC)
- Valentina Giannini (CMCC)
- Clare Downing (Univ of Oxford)

ETC CCA consortium

	CMCC - Euro-Mediterranean Center on Climate Change - Coordinator
	Alterra - Institute within the legal entity Stichting Dienst Landbouwkundig Onderzoek
	AU-DCE - Aarhus University-Danish Centre for Environment and Energy
	CUNI - Charles University Environment Center
	EAA - Umweltbundesamt GmbH
	FFCUL - Fundação da Faculdade de Ciências da Universidade de Lisboa
	FT - Fresh-Thoughts
	MO - Met Office Hadley Centre
	SYKE - Finnish Environment Institute
	Thetis - Thetis S.p.A.
	UFZ - Helmholtz Zentrum für Umweltforschung GmbH
	UKCIP - University of Oxford (UK Climate Impact Programme)
	UPM - Universidad Politecnica de Madrid
	ZAMG - Zentralanstalt für Meteorologie und Geodynamik

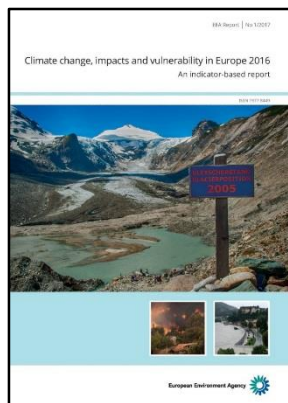

Key relevant developments

- **Global agreements** Paris (UNFCCC), Sendai (DRR), SDGs, Biodiversity
- **EU Multiannual Financial Framework 2021-2027**, European Commission proposal
- **EU Energy union**, governance; **EU LULUCF** Regulation; current MMR reporting (March 2019)
- **Evaluation of the EU adaptation strategy** roadmap (2017/2018)
- **Knowledge** : IPCC reports (2018 1.5 C implications; 2019 'Oceans and cryosphere' and 'Land'; 2021/2022 'AR6'); EU programmes (Horizon2020, LIFE, Interreg); Copernicus services
- **EEA:**
 - EEA/Eionet evaluation (European Commission)
 - New ETC light topic review and selection process
 - SOER2020

EEA main products and services on CC impacts, vulnerability and adaptation 2017-2018

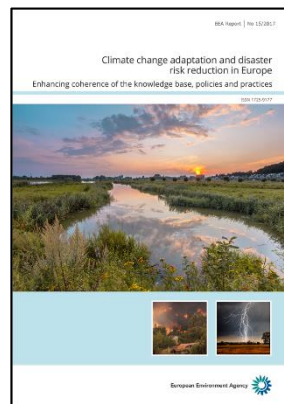

Impacts and vulnerability

Urban adaptation

CC adaptation and disaster risk reduction

National CCIV assessments

Climate-ADAPT

The screenshot shows the website's header with the European flag and the text 'Climate-ADAPT - Sharing adaptation information across Europe'. Below is a navigation menu with 'About', 'Database', 'EU policy', 'Countries, regions, cities', 'Knowledge', 'Network', and 'Help'. The main content area includes 'Navigating on Climate-ADAPT' with a guide to the platform, 'Climate-ADAPT quick guidance' with a list of user groups, and four interactive buttons: 'New to adaptation? Use the Adaptation Support Tool', 'What are European countries doing?', 'Find case studies on adaptation in Europe', and 'Share your information'. A footer contains 'News', 'Events', 'Newsletter', and 'Latest updates'.

All supported by the European Topic Centre on CC IVA, see: <http://cca.eionet.europa.eu/>

Climate-ADAPT

Other 2018 'CC impacts, vulnerability and adaptation' *reports and briefings*

EEA reports and briefings	Send for consultation	Publication
Social inequalities and climate change impacts, air quality, noise (+ ETC technical paper)	July 2018	Nov/Dec 2018
Adaptation policies in transnational regions (Briefing) + factsheets + ETC technical paper		Nov 2018
Draft 2019 report 'Climate change adaptation in the agricultural sector'	Dec 2018	Q1 2019
Draft 2019 report 'Climate change adaptation in the energy system' (expert meeting, autumn 2018)	End 2018/Q1 2019	Q1/Q2 2019

2018 'CC impacts, vulnerability and adaptation' *other products and services*

EEA products and services	Date
Updated indicators on climate change and impacts	Ongoing in 2018
Draft ETC/CCA Technical Paper on national-level 'Indicators to monitor adaptation to climate change' and related database	January 2018 (final end 2018)
Development of a 2019/2020 EEA assessment report on 'Monitoring, reporting and evaluation of climate change adaptation policies'	Ongoing
Annual Eionet workshop (back-to-back expert meeting on national vulnerability assessments, 5-6 June 2018)	6-7 June 2018
Climate-ADAPT: Layout redesign and improved functionalities and web-based tool for reporting on adaptation by countries	Nov 2018
Climate-ADAPT: Updating and improving content; quarterly newsletter; new work plan 2019-2021	Ongoing
Contributions to the State of the Environment and Outlook report 2020	Ongoing 2018/2019

EEA programming document 2019-2021 and work programme 2019

Timeline:

- 30 Jan 2018: Adoption of draft (Management Board) (MB)
- Feb-March 2018: Eionet consultation on draft (MB, National Focal Points)
- May/June: EEA Scientific Committee and European Parliament comments
- 19 June: EEA MB meeting and discussion
- July 2018: European Commission opinion
- 15 October 2018: Guidance from MB/Bureau
- 4-5 Dec 2018: Adoption of final PD 2019–2021 and budget 2019

European Environment Agency Draft Programming Document 2019–2021

Expanding the knowledge base for policy implementation
and long-term transitions

Draft adopted by EEA's Bureau at its 74th meeting on 30 January 2018 (Decision EEA/BU/2018/002), in accordance with the delegation by the EEA Management Board at its 80th meeting on 6 December 2017 (EEA/MB/2017/034)

Objectives and agenda of the EIONET workshop

- Update of work by EEA (+ ETC/CCA), European Commission, international organizations and member countries
- Sharing country experiences and activities
- Parallel group discussions (see background papers and guiding questions) on main EEA products and services for 2018 and tentatively for 2019
- Eionet evaluation survey (at/after the workshop)
