

**12th EIONET workshop on Climate Change Impacts, Vulnerability and Adaptation,
6-7 June 2018**

**EEA, Conference room
(Kongens Nytorv 6, 1050 Copenhagen, Denmark)**

Use of Sli.do

During the Eionet workshop on Climate Change Impacts, Vulnerability and Adaptation, 6-7 June 2018, we will increase the interactivity of the meeting by making use of Sli.do.

Sli.do is a technology tool that enhances communication and increases interaction during meetings. Participants can ask questions and answer polls.

Participants do not have to install any software or create a profile. During the meeting you will get a url address accessible via every internet browser and a meeting code.

Sli.do is a service by a commercial company and the privacy policy can be found at <https://www.sli.do/terms>

Recently, Sli.do updated its terms of service, privacy policy and security standards to be in line with the GDPR requirements.

Your participation is voluntary. Writing your name under your questions is encouraged, however optional and anonymous questions are possible as well.

How this works in practice, will be explained and demonstrated at the beginning of the meeting.

If you have questions, please contact Wouter Vanneuille (wouter.vanneuille@eea.europa.eu).

I am looking forward to meeting you in Copenhagen.

Yours sincerely,

André Jol
Head of group climate change impacts, vulnerability and adaptation
