

Actions and Country reviews

Actions (1)

- EEA will upload all presentations to the website for the EIONET NRC Freshwater Workshop and the minutes will be available within 2 weeks to participants, water NRCs and NFPs. 2 weeks for comments.
- EEA will make the roadmaps available to NFPs and NRCs.
- EEA will inform participants about the outcome of the high level INSPIRE meeting last week.
- EEA will clearly identified the data sources used for water use by tourism in the 'Report on water use by tourism'.
- EEA will clarify how the emission report will cover emissions to TCM waters.
- EEA will ensure that the legends and titles of the figures in the 'Report on the use of freshwater resources in Europe (2002 – 2014)' will clearly reflect if monitored or modelled data are being presented. Also for all other products.
- EEA will clarify ex-ante for which assessments data is collected.

Actions (2)

- Bilaterals were agreed with some countries (FI, SK, NL) and clarifications on E-PRTR.
- The link to the QC document on WISE will be provided as well as the link to the document on scoring criteria by Hermann.
- NRCs/NFPs can provide further comments and questions on the 2015 and 2016 SoE data request via wisesoe.helpdesk@eionet.europa.eu to EEA and ETC until 30 June 2016. Please indicate if you feel that a content person needs to reply to your comment/question and list the Freshwater EIONET workshop 2016 as subject.
- NRCs to liaise with NFPs regarding preparation of the EEA Management Board Seminar on 6 December on the future EEA/EIONET.

Country reviews/EIONET consultations

- 16 July – 1 September 2016: Report on restoring rivers and lakes in European cities
