Introduction to reporting WISE-2 for new reporters

European Environment Agency
European Topic Centre on Inland,
Coastal and Marine Waters

WISE SoE – Biology data (WISE-2 data flow)

WISE-2 dataflow was established to obtain a harmonised flow of **biology data reported as Ecological Quality Ratios (EQRs)** from all surface water categories; rivers, lakes, transitional and coastal waters.

Coastal and Marine Waters

Define reporting and find resources

Define reporting	→	Compose dataset for delivery	→	Deliver & QC	→	European database	→	Data products

Reporting help	It describes how to use Reportnet during the reporting process and how to improve the quality of deliveries.	https://cdr.eionet.europa.eu/help/WISE_SoE/wise2
Data dictionary (DD)	Central service for storing technical specifications of the data requested in reporting obligations (e.g. data types, allowable value, relationships between other element…)	https://dd.eionet.europa.eu/datasets/latest/WISE-SoE_Biology
Reporting Obligations Database (ROD)	Enables storing, searching, browsing and updating reporting obligations. Within ROD, user can find all information about WISE SoE data flows.	https://rod.eionet.europa.eu/obligations/630

Define reporting and find resources

Define reporting → **Compose dataset for delivery** → **Deliver & QC** → **European database** → **Data products**

1. Grant your reporting rights
   Help section: WISE2 > Biology data reporters

2. Get step-by-step guidance to deliver the data
   Help section: WISE2 > WISE SoE Reportnet guidance

3. Enter the CDR, create envelope, and upload the file
   CDR for official deliveries | CDR Sandbox (user/password: datareporter/datareporter)

4. Run automatic QC

5. Release the envelope
