

Review of nutrients reporting in 2020 datacall

WISE SoE: Dataset volume

- Quality (3 tables, 55 659 562 records)
- Quantity (7 tables, 4 975 389 records)
- Emissions (3 tables, 102 480 records)
- Biology (3 tables, 41 697 records)

WISE-6 data flow 2020 (monitoring year 2019)

October 2020

168 SoE Helpdesk tickets solved in the period of reporting.

Help for SoE reporting available at the [CDR Help section!](#)

[WISE-6](#) data model has replaced the older version: [WISE-4](#).

Reporting of more matrices possible, additional [QC rules](#) introduced.

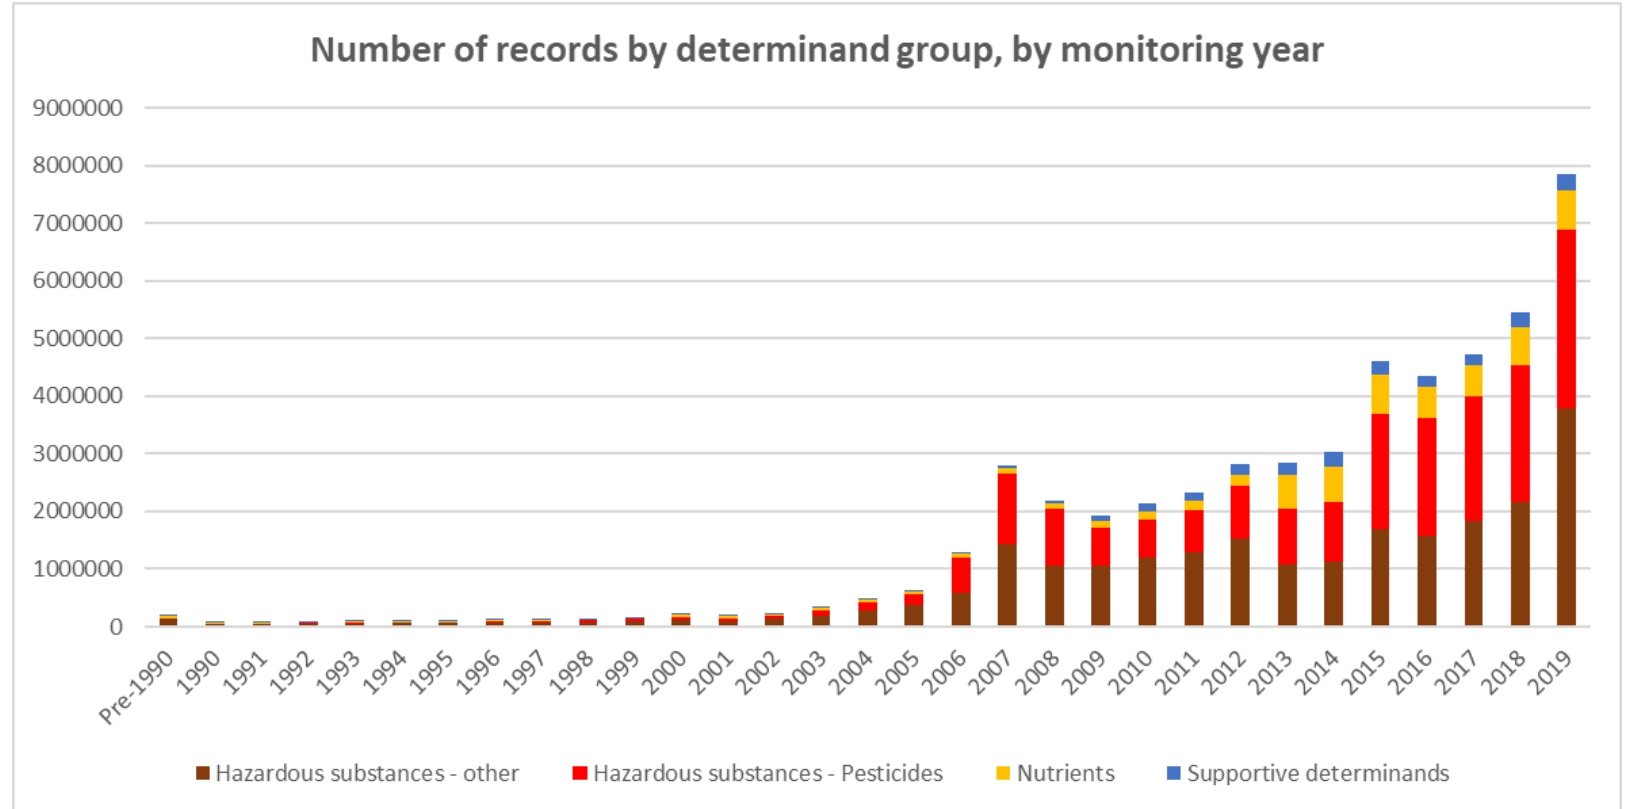

EEA DIS composed [Waterbase – Water Quality](#) data set (May 2021).

Also available from [Discomap](#).

Reported determinands

Determinand group	Number of reported determinands, all period
Hazardous substances - other	519
Hazardous substances - Pesticides	237
Nutrients	30
Supportive determinands	9
Total	795

Data reported for 2019

Water category	Monitoring sites	Determinands	Countries
Groundwater	12066	731	24
Coastal water	485	395	8
Transitional water	403	430	9
Lake water	1375	616	23
River water	8023	670	32
Territorial waters	1	3	1
