

WFD reporting – training course 4 February 2010

Feedback questionnaire

1. The agenda for the day (structure of the event)

Well structured, no comments, but too little place given for putting questions. The afternoon session was very tough.

2. The conduct of the course (presentations, questions, answers)

Presenters were well prepared in all the fields.

3. Logistics (communication, venue)

very well, no comments

4. Do you see a need for similar events for other reporting/topics?

I am not involved in any other reporting except WISE (only ICPDR reporting) so I do not feel responsible to answer this question.

5. Any other suggestions for improvement

My opinion is that such kind of event will need maybe a half a day in addition for discussion / putting questions of member states representatives and responses.
